

HIGH TECH INNOVATIONS FOR THE  
GLASS INDUSTRY „MADE IN BAVARIA“.

# AP AUTOMOTIVE

## POWDER SPRAYER FOR AUTO GLASS

Dosing system with injection module and distribution module: The dosing system stands for accurate dosing and repeat accuracy. The injection module is resistant to deposits and blockages. The distribution module provides the uniform distribution of the separator agent and allows an automatic width adjustment.

- Optimized application system for windscreen coating
- Nozzle system with „fixed spray angle“.
- Most separator agents for auto glass currently on the market.
- Robust design for low-maintenance continuous use.
- Adaptable to changes in product conditions.

HIGH TECH INNOVATIONS FOR THE  
GLASS INDUSTRY „MADE IN BAVARIA“.

# AP AUTOMOTIVE

## POWDER SPRAYER FOR AUTO GLASS

The AP AUTOMOTIVE from Grafotec is specially customized for coating windscreens with powder separator agents and is perfectly suited to the standard conditions of the auto glass technology. Its nozzle system with “fixed spray angle” ensures a fine and uniform coating and is easily integrated into current production lines – due to its space-saving design.

With AP AUTOMOTIVE we are offering a dry separator agent application device with the quality expected from products “Made in Bavaria”, that has been perfectly adapted to the state-of-the-art conditions in the auto glass industry.

### Technical Specifications:

Application Type:	Nozzle system with „fixed spray angle“
Release Agent:	Most separator agents for auto glass currently on the market.
Application Width:	< 2500 mm
Number of Nozzles:	8/4   12/6   16/4x2
Powder Reservoir:	2 Litres
Special Features:	<ul style="list-style-type: none"><li>✓ Automatic and manual application width adjustment.</li><li>✓ Automatic speed adjustment.</li><li>✓ Maintenance-free and frequency-controlled side channel blower.</li></ul>

#### Dosing system with injection module and distribution module:

The dosing system stands for accurate dosing and repeat accuracy. The injection module is resistant to deposits and blockages. The distribution module provides the uniform distribution of the separator agent and allows an automatic width adjustment.

All AP AUTOMOTIVE systems can be individually adjusted according to your needs and product lines.
