

HIGH TECH INNOVATIONS FOR THE
GLASS INDUSTRY „MADE IN BAVARIA“.

PDS

POWDER DISTRIBUTION SYSTEM FOR FLOAT-/FLAT GLASS

The Grafotec PDS is a special roller based on a powder separator application system. With an application width up to 6,500 mm and its special electrostatic powder charging it provides an outstanding uniform and homogeneous application of most separator agents for float and flat glass currently on the market.

- Roller based system with „Electrostatic Powder Application“.
- Can be integrated into the production lines already in use.
- Robust design for low-maintenance continuous use.
- Clean work environment.
